Specialty: Residential, Land, Condominiums, fluent in Japanese

About Me:

Graduating from Gakushuin University in the late 1990's I proceeded to work in the corporate world both inside and outside of my home country that is Japan. Personal real estate investments in various locations around the U.S. triggered my choice to pursue a career in real estate. Timeliness, attentiveness, and attention to detail are the pillars supporting my real estate service platform. I also make a continuous effort to keep abreast of the regulations impacting real estate ownership and use in the state of Hawaii. I've lived on the island of Kauai since the beginning of 2007 enjoying swimming, hula, and the company of my family and friends. Kauai Realty has extended that family and I sincerely consider myself blessed to be part of their own network and ohana.
